INFORMATION DISCLOSURE STATEMENT Technology Center 2600

Sir:

Applicants submit herewith references of which they are aware, which they believe may be material to the examination of this application and which they may have a duty to disclose in accordance with 37 CFR 1.56.

While this Information Disclosure Statement may be "material" pursuant to 37 CFR 1.56, it is not intended to constitute an admission that any document referred to herein is "prior art" for this invention unless specifically designated as such.

I hereby certify that this correspondence is being deposited with the United States Postal Service on the date shown below with sufficient postage as first class mail in an envelope addressed to the: Director, U.S. Patent & Trademark Office, Alexandria VA 22313-1450.

Margery B. Hood
Margery B. Hood

Dated:

Feb. 11, 2004

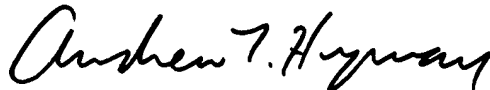

In accordance with 37 CFR 1.97(g), the filing of this Information Disclosure Statement should not be construed to mean that a search has been made or that no other material information as defined under 37 CFR 1.56(a) exists.

Enclosed is an International Search Report from the European Patent Office dated July 22, 2002. Also enclosed is a Form PTO-1449 listing the cited references.

This is a resubmission of an Information Disclosure Statement originally mailed August 28, 2002 and received in the USPTO on September 3, 2002, as evidenced by a copy of a return postcard stamped with that date, and is responsive to the Official Action of November 24, 2003, in which the Examiner states that said IDS fails to comply with 37 CFR 1.98(a)(2) for failing to provide a copy of each cited reference. A subsequent telephone conversation with the Examiner revealed that the IDS was lost and therefore the references were not available to the Examiner for consideration.

This submission is timely, because it is a resubmission of the IDS originally filed September 3, 2002, which is within three months of the International Search Report dated July 22, 2002.

Respectfully submitted,

Andrew T. Hyman
Attorney for the Applicant
